

WORKSHOP / INSTALLER

Location: Willenhall

This is a varied role involving depot based workshop tasks and field based installations. You will be responsible for the completion of machine movement requests through the preparation and installation of electronic equipment, in Gamestec workshop and in the field, applying the highest of standards to both workshop and field based activities.

Experience in servicing of electronic or electromechanical products i.e. gaming, office equipments will be a significant advantage. You must possess good interpersonal skills and customer service skills. Current UK driving licence is necessary as this role involves visiting customer premises to install machines within the area. In addition to a competitive salary, we provide other benefits associated with large UK business.

Please note: A CRB check will apply to the successful candidate.

This vacancy is open to both internal and external applicants.

Internal applicants: You are asked to please notify your line manager should you submit an application.
